### ***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of claims 1-10,12,13,27 is the inclusion of the following limitations: 'a plurality of lower-level subroutines, wherein after the processor executes various lower-level subroutines, the hardware circuit will be controlled to execute various corresponding operations, and each the lower-level subroutine will record operation results, which come from the hardware circuit executing corresponding operations, in an error code; wherein each operation result corresponds to a recovery operation; a plurality of higher-level subroutines, each higher-level subroutine used for calling at least a lower-level subroutine to control the hardware circuit to execute operations corresponding to the lower-level subroutine called by the higher-level subroutine when the processor executes the higher-level subroutine; after the processor executes the higher-level subroutine, executing the error-handling subroutine to allow the processor to control the hardware circuit to execute recovery operations according to the operation results corresponding to the lower-level subroutine called by the higher-level subroutine'.
3. The primary reason for the allowance of claims 14-23,25,26,28 is the inclusion of the following limitations: 'a plurality of lower-level subroutines, wherein after the processor executes various lower-level subroutines, the hardware circuit will be
